## Customer Chat Support Representative – Work From Anywhere Without a Degree

### Description

### Position Summary

Our client, a digital-first brand in the self-improvement and productivity space, is expanding its 24/7 customer support team and hiring Customer Chat Support Representatives for fully remote positions. This opportunity is ideal for candidates who want to work from home, have no previous work experience, and don't hold a college degree. If you're a quick learner, comfortable typing, and enjoy solving problems through messaging, this is a high-paying, flexible role you can start from anywhere with internet access.

All support is delivered via live web chat—there are no phone calls, Zoom meetings, or outbound dialing. Your job is to assist site visitors with account issues, order support, and general inquiries using easy-to-follow templates and an intuitive dashboard. Paid onboarding is provided to all hires, and scheduling is flexible to accommodate various time zones and personal commitments.

### What You'll Be Doing

#### Chatting with Website Visitors

You'll engage with users who start a chat session on the company's website. Questions range from "How do I access my course?" to "Can I apply a coupon at checkout?" Your role is to guide, support, and provide quick, helpful answers in a friendly and professional tone.

#### Following Company-Approved Scripts

Most answers will be prewritten and available as part of your live chat interface. You'll be able to insert, edit, and send templated responses to common customer questions.

#### Resolving Support Tickets

Many issues—like login help, order tracking, or basic refunds—can be solved immediately within the chat window. You'll follow guided flows to resolve these without needing management approval.
