Live Customer Service Representative – Entry Level IT Jobs Remote No Experience

Description

Company: TechConnect Solutions

Location: Remote (United States)

Pay Range: \$25-35/hour

Schedule: 5-40 hours weekly

Tech Experience: None required – we'll train you

Bridge Into Tech Through Live Customer Service

Ready to break into the tech industry without a computer science degree? TechConnect Solutions offers **entry level IT jobs remote no experience** through our innovative live customer service platform. This position provides the perfect gateway into technology careers while building valuable IT skills through customer-facing live customer service work.

Live Customer Service Meets Technology

Live customer service in the tech industry combines customer communication with technical knowledge, creating an ideal entry point for aspiring IT professionals. You'll support software companies, SaaS platforms, and tech startups through live customer service while naturally developing technical expertise.

Your Tech-Focused Live Customer Service Role

Technical Website Support Provide live customer service for technology websites, helping users navigate software features, troubleshoot basic issues, and understand product capabilities. Your live customer service work builds technical knowledge while solving real customer problems.

Software Platform Assistance Handle live customer service for various software applications through social media and chat platforms. Learn different technologies while providing live customer service that helps users maximize their software experience.

Tech Sales Support Use live customer service interactions to guide customers toward appropriate software solutions, explain technical features, and facilitate technology purchases that meet specific business needs.
