### Description

### Position Summary

An innovative digital commerce brand is expanding its virtual support team and now hiring Remote Live Chat Assistants. This fully online, entry-level role requires no previous experience or college degree and provides complete training, competitive hourly pay, and flexible work hours. Whether you're starting your remote career or transitioning from in-person roles, this position offers a smooth pathway to earning from home by supporting customers via chat. As a Live Chat Assistant, you'll communicate directly with customers through a real-time messaging platform embedded in the company's website. Your responsibilities will involve assisting with orders, answering product-related questions, guiding users through checkout, and escalating support issues—all through written responses. There are no calls, meetings, or video chats involved. This is a pure chat-based position that's ideal for focused, self-motivated individuals who want location independence and schedule freedom.

You'll have access to a library of ready-made responses and AI-powered suggestions that help streamline your replies while maintaining quality and brand voice.

#### Logging Interactions and Tagging Conversations

At the end of each chat session, you'll assign a support category and include a brief summary of the conversation. This helps track recurring issues and improves system performance.
